OIL COMPANIES VIEW FIELD

TOP CONTINENTAL Oil Co. (U.S.A.) officials dropped in for lunch and look at oilfields in brief stop here yesterday. Travelling by private plane were, from left, R. C. Brown, L. F. McCollum and W. C. MacMillan. McCollum and MacMillan are from Ponca City, Okla. Brown is managing director of the Canadian subsidiary, Hudson's Bay Oil and Gas Co. with offices at Calgary.

Party of U.S. Oil Officials Pleasured With Progress Here

IMPORTANT DATES OF WAR RECALLED

Just 10 years ago today—September 2, 1930—Britain and France declared war on Germany and the greatest conflict in human history was underway. On the 10th anniversary of the start of the Second World War the Bulletin publishes in chronological order the salient highlights of the world-grinding struggle. For students and others interested in recalling dates of the greatest battles and events in history this chronology is invaluable. You'll find it on page 5.

Pork, Beef, Potato Prices Show Decline

Strained food budgets are getting relief in Edmonton today as more adequate seasonal supplies are sending meat and vegetable prices downward.

Wholesale prices for pork, beef and potatoes slumped from two to five cents during the past week and beef on the wholesale market, slipped from one to two cents a pound on all cuts.

Retailers lopped prices even more as slight further drops in pork wholesale prices are anticipated.

PORK PRICE DOWN
All pork cuts are two to four cents a pound lower in retail stores compared to last week and some cuts have plunged five to 10 cents a pound.

Choice quality bacon, which sold a few weeks ago for 25 to 30 cents a pound, was offered as a Saturday special in some stores today for 25 cents a pound.

Marketing of the season's hog crop in eastern Canada results in the decline in price.

Beef, in most retail stores, is down four to five cents a pound. Other retailers, anticipating further drop in wholesale prices, are offering top quality beef cuts at 30 cents a pound lower than last week.

FORECASTS WARY
Wholesalers today said they were unable to forecast definitely a further drop in wholesale beef prices. All depends on the livestock marketing in the United States and eastern Canada, one wholesaler said.

Meanwhile, start of the marketing of local grown potatoes is expected for a slight decline in this commodity.

Potatoes which were selling at four pounds for 25 cents last week, are now being offered at five pounds for the same price at retail stores.

Vegetable wholesalers said new crops of carrots, turnips, parsnips and beets will be "reasonable" when they reach the local market.

Death Sentence Is Commuted

LETHBRIDGE, Sept. 2.—(AP)—Sixteen-year-old Allan Clifford Newlove, who last June was sentenced to death at Drumheller for murdering the wife of his employer, will not be hanging his date with the hangman in Lethbridge provincial jail next Tuesday.

His death sentence has been commuted to life imprisonment in the penitentiary at Prince Albert, Sask., by a majority federal cabinet and he is to leave here on Tuesday for the penitentiary.

'49 Building Now Nears \$15 Million

Record Total Of 1948 Will Fall This Month

This year's house building permits alone promise to outstrip total building permits for any year previous to 1948. At Aug. 31 they stood at \$14,099,852, while in only two years before 1948 (in 1933 and 1946) did permits for all types of building reach the 15 million mark.

Total permits for 1949 promise to exceed last year's all-time high of \$17,123,329. Short of last year's all-time high of \$17,123,329.

Several large commercial building permits are almost ready to be issued, and if these go out the building inspector's office Monday or Tuesday, the city will have set a new mark in value of new construction.

LAG BEHIND 1948
But total value of permits still lags 113 behind the 1948 figure of \$14,099,852, reflecting higher individual values for new buildings this year. So far this year 3,983 permits have been issued.

While this year's housing permit value stands at \$14,099,852 or 81.7 per cent of last year's \$17,123,329, the number stands at 2,167, or 21.3 per cent of last year's 10,174.

SAVED HOUSE PERMITS
During the August, 1948 figure and \$1,007,008 short of last August's figure. Only 431 permits were issued valued at \$2,500,000, compared with 564 permits valued at \$2,500,000.

Accompanying the Continental men were R. C. Brown, Calgary, vice-president and general manager of Hudson's Bay Oil and Gas Co., and G. H. Brown, Calgary, exploration manager.

GOOD PROGRESS
Mr. McCollum said good progress was being made by the HBCO Company in the \$16,000,000 exploration program that was laid out for this year, but added that they had yet to discover their first major field.

The exploration program, he said, presently extends over most of Alberta—from the U.S. boundary in the south to the Peace River country.

At present the company has producing wells in Turner Valley, Redwater, Leduc, Kinross and Lloydminster.

Briff's eye view of the Leduc field was had by the officials as they passed over the field en route to Edmonton, and they planned to see the Redwater field in a similar manner on leaving yesterday afternoon.

MEET PREMIER
Mr. McCollum said his company had no connection with the Continental Oil Co. of Canada which was active in Alberta.

The party lunched with Premier Bennett yesterday afternoon. Ministers Minister N. K. Tanner at the Macdonald hotel.

Two Children Die In Flaming Home
TORONTO, Sept. 2.—(AP)—Two children were killed and a third injured when a fire swept through a night home in northwest Toronto.

The bodies of the children—identified as Bonnie, 8, and her six-year-old brother Bobby—were recovered from the gutted house after the fire started.

Fire reports said both parents were taken to hospital with severe burns.

SYMBOL OF PROSPERITY
The turtle is one symbol of longevity and prosperity.

He said the turtle was described as a six to seven feet long and weighed about 100 pounds. It was taken by a fisherman to be 1,000 years old.

Three orders it brought to the Seoul two and radions the Korean Embassy in Washington to obtain the latest information on the case and feeding of turtles.

William Menn, director of the Washington zoo, said that if the turtle, actually was seven feet long, it was a record, the biggest previously known being one 4½ feet long at the British Museum.

MAN'S BEST FRIEND—YOU DOG!

ALBANY, N.Y., Sept. 2.—(AP)—A mongrel dog put the bite on a waiter waiting tables at a restaurant here Thursday.

William A. Flynn, a retired policeman, reported he felt the waiter, near his home Thursday, a short time later, a stranger knocked at Flynn's home and held out the waiter.

He told Flynn he had found it on the street. Just then the dog ran up, snatched the waiter from the stranger's hand and disappeared.

Big Holiday Is Planned By Thousands

Hundreds of Edmontonians left the city by automobile to travel to holiday spots for the week-end.

But for those at home, a full holiday schedule is also promised, with a football game at Clarke stadium Monday evening, high-lighting sports events.

At Maple Grove and Country Club the western Canada and Alberta golf tournament opened today and will continue tomorrow and Monday.

Golfers will play 18 holes tomorrow and will round the course twice on Monday.

Labor Day will also see wind-up of baseball events, with Calgary and Edmonton teams.

Pipe Lament For 'Brawlan'

VANCOUVER, Sept. 2.—(CP)—The slow wail of the Pibroch will rise in a Scottish lament Sunday when the body of Senator Ian Mackenzie comes to the station.

The colorful political gladiator died yesterday in Banff of a heart attack.

Church, state and military dignitaries will mix with the humble people in the funeral service in public life for 30 years.

FUNERAL TUESDAY
Scottish organizations, always dear to the Senator's heart, will hold a service at 11 a.m. Tuesday at St. Andrew's church.

The services will be conducted in Central Presbyterian Church at 2 p.m. PDT, with Rev. J. B. Skene officiating.

The honorary pallbearers will include Premier Bruce Johnston; Fisheries Minister R. W. Matheson; Attorney-General Gordon Wimer; and Senators J. H. King, J. W. Farquhar, and J. B. Skene of Vancouver.

Outlook Fine On Week-End
Edmonton holidaymakers will be aided by the bright nature over the last long week-end of the summer season.

This was assured by the weatherman this morning. "Those clouds hanging over the city don't mean anything either," he said.

Possibility of the Labor Day weekend being a "white" day, if the weather was pretty small, weatherman said.

Outlook for Edmonton today is cloudy and clear this evening, with temperatures much the same as yesterday. High for today forecast at 76.

Cross-Canada temperatures yesterday:

G. Prairie 72, L. 52, Victoria 62, 33, 31, 30, 29, 28, 27, 26, 25, 24, 23, 22, 21, 20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0, -1, -2, -3, -4, -5, -6, -7, -8, -9, -10, -11, -12, -13, -14, -15, -16, -17, -18, -19, -20, -21, -22, -23, -24, -25, -26, -27, -28, -29, -30, -31, -32, -33, -34, -35, -36, -37, -38, -39, -40, -41, -42, -43, -44, -45, -46, -47, -48, -49, -50, -51, -52, -53, -54, -55, -56, -57, -58, -59, -60, -61, -62, -63, -64, -65, -66, -67, -68, -69, -70, -71, -72, -73, -74, -75, -76, -77, -78, -79, -80, -81, -82, -83, -84, -85, -86, -87, -88, -89, -90, -91, -92, -93, -94, -95, -96, -97, -98, -99, -100.

Nine Killed, Six Saved In Crashes

Two Airmen Died Trying to Land Crippled Plane

From AP Dispatches

Nine persons were killed yesterday in air crashes in Fairfield, Calif., and Anchorage, Alaska.

A pilot and his co-pilot died in Fairfield when they tried to land a crippled C-47 air force "Flying Buzzer" on a marsh after air crew persons had parachuted to safety.

ALASKA CRASH
An Alaskan Air Depot C-47 crashed near Anchorage killing all seven crew members.

Two of the Fairfield survivors were crew members and four were passengers.

One badly burned body was found about 30 feet from parts of the wreckage.

The pilot radioed over at 5,000 feet and one of his engines failed.

The plane was en route from Lower Air Base in Denver to the Naval Air Station at Alameda, Calif., via San Francisco Bay. It crashed about 20 miles from its destination.

A United States Army crash boat was at the scene of the crash, some 10 miles south and west of Anchorage, trying to find the bodies.

A rescue fleet plane earlier flew down near the wreckage and the pilot, who was on one portion of the plane, from which identification was made. The plane had been on a routine training flight and had been in the air only 45 minutes when it crashed.

Three Children Burn To Death
ST. MARYS, Pa., Sept. 2.—(AP)—Three terrified children burned to death yesterday in an upstairs bedroom while their father vainly pleaded with them to come to a window at which he had placed a ladder. Flames enveloped the father and the father, Richard Gauseman, plunged to the ground.

The line would be laid as much as possible over sedimentary terrain, which eliminated a line to Peoria, Ill., and the rugged Peoria-Cambria area.

Asked for comment on the project, which would be a line to Peoria, Wis., Wisconsin, Hewson said the line would terminate in the Peoria area.

(Continued on Page 2) See "City Refinery's Output"

21,500 Barrels Daily Production

Imperial Oil's Edmonton refinery today has become the largest oil refinery in Canada, west of the Great Lakes.

This was disclosed today by H. H. Hewson, president of the company, who said in Calgary the city plant is now producing 21,500 barrels daily. This Mr. Hewson said, makes it the largest west of the Lakes.

The refinery when first opened a year ago had a capacity of close to 11,000 barrels a day. Last spring Mr. Hewson saw the third unit put into operation. This jump production is nearly 16,000 barrels which it has remained until the recent increase.

Hewson also indicated that the location of the eastern terminus of the company's pipeline to the Head of the Lakes might be decided shortly.

The president said officials at the Edmonton Refinery think they can keep the plant operating at its present rate. And he thought that under favorable circumstances it might be possible to increase the figure.

The Imperial Oil chief pointed out that the refinery was now handling Leduc crude. Refining of crude oil from the Redwater field might slow operations down, but he said it was not a serious matter.

The Regina refinery of the company might be able to turn out 7,000 barrels per day. Hewson said. But he noted that other western plants are of much smaller capacity.

STATION HERE
Details on the pipeline to the Head of the Lakes from Edmonton were discussed by the president. He said pumping stations would be situated at Edmonton and Regina, Saskatchewan, on the first leg of the line. That part will be constructed with 26-inch pipe. A pumping station will be built at Regina, and from there to Regina, Saskatchewan, and from there to Regina, Saskatchewan, and from there to Regina, Saskatchewan.

The pipeline between Regina and the Head of the Lakes will be 18 inches in diameter. And there will be one intermediate station between Regina and the Head of the Lakes.

The line would be laid as much as possible over sedimentary terrain, which eliminated a line to Peoria, Ill., and the rugged Peoria-Cambria area.

Asked for comment on the project, which would be a line to Peoria, Wis., Wisconsin, Hewson said the line would terminate in the Peoria area.

Kiddies Find Big Change From Hong Kong to City

From China soon. He has one married daughter living in Hong Kong.

Joe first came to Canada in 1923 and has been in Canada for many years.

During the last war, he paid a visit to his father and was caught in the Japanese capture of Hong Kong.

Although he was not held prisoner, he was not allowed to leave Hong Kong until after the Japanese surrender in 1945.

He never saw any of his Canadian friends after the fall of Hong Kong. The Japs took them all to prison camps elsewhere, he recalled.

CAME BY AIR
The brother and sister made the long journey here by air, flying from Hong Kong to Seattle by way of Tokyo and the Alaskan Airlines.

May Pon, a bright-eyed little Chinese girl, was in high school in Hong Kong but, because of scant training in English she has to start here in a lower grade, so does her brother Mon.

But both children are getting along just after school hours and have advanced sufficiently already in the study of English to say "Hello" when asked how they are doing.

Father Joe Pon hopes to bring Mrs. Pon and her sons soon out of the city.

CHOPSTICKS ARE OUT for young new arrivals from China, May Pon 15, (left) and Mon Pon 14, as they partake of meal in father's restaurant here. Pon children arrived recently by air from Hong Kong and have already started to school. Father is Joe Pon, proprietor of Joe's Coffee Bar on 100 street.

It Happened TODAY

International

Economically bettered Britain has received a few kind words from an old American friend. Speaking to a Junior Chamber of Commerce dinner in Toronto, Kansas, Dwight D. Eisenhower urged his country to look sympathetically toward Britain in her financial crisis. He observed U.S. treasury is not a bottomless pit and stressed community of interests with United Kingdom.

In his hotel room, one praised the other. The writer more recently, says Communism superior to Democracy. Barry, escaped from Russia several months ago with a companion and came to the United States. Barry recently "escaped" back to Russia.

Barbara Ann Scott starts rehearsal soon for her all-Canadian tour. She is the first Canadian to appear at Winnipeg on Oct. 10.

Targets become smaller as one grows older. King Gustav of Sweden has been hunting rabbits and is going out after elk because elk "are big enough."

Manners & Morals

House-hungry Canadians hope good fortune of Reconstruction. When Walter Scott makes his home interest in housing problems. The minister, recently "revived" by a house in Ottawa, has been house-hunting for two years.

Targets become smaller as one grows older. King Gustav of Sweden has been hunting rabbits and is going out after elk because elk "are big enough."

Chinese War

Chiang Kai-Shek is reported to have planned defense against the Communists. He is sweeping down from north. It was said Nationalist leader came from Chungking where he was mapping a new defense line for all of south China. Nationalist army claims great success in attacks on Communist shipping along southeast coast.

Medicine

When we become civilized more of us go bawly, warns Dr. William Menninger, famed U.S. psychiatrist. He has warned U.N. health committee that mental health problems will follow projected development of world's backward areas. Many efforts to adapt himself to speed-up tempo result in breakdown, says Menninger.

Just as the tobacco trade after chewing gum give him a big case of tobacco. Dr. Daniel P. McGuffin, U.S. psychiatrist, expressed this opinion in an address to the Maritime Dental Association. He says tobacco would be better than gum for children because tobacco provides roughage and fibre more closely resembling food.

People

U.S. authorities are pretty well convinced that "repentance" of Soviet deserter Anatol Baranov was a Russian government "plant." Two diaries written by Baranov have been found.

City Refinery's Output Boosted

(Continued from Page 1)
The terminal will be the Duluth area.

Dr. O. B. Hopkins, vice-president and director of the company, said property in the Superior area was being considered.

The Imperial Oil president said his party would go from Alberta to the head of the Lake, to see if we can find the other end of this pipeline.

The aim of the firm is to move oil to begin in late 1950, and to the head of the Lake in late, possibly in the spring.

Bar Association Names President

Saint John Lawyer Succeeds Stanley McQuaig Of Edmonton

By Ken Methel

BANFF, Alta., Sept. 3.—(CP)—A. N. Carter, 59, of Saint John, N.B., today was elected president of the Canadian Bar Association. He succeeds Stanley H. McQuaig of Edmonton.

Elected vice president at the final session of the 31st annual convention of the organization was Ernest G. Gowing, of Ottawa. Both men will serve the remainder of the year.

Mr. Carter, 59, of Saint John, N.B., was elected president of the Canadian Bar Association. He succeeds Stanley H. McQuaig of Edmonton.

Mr. Carter, 59, of Saint John, N.B., was elected president of the Canadian Bar Association. He succeeds Stanley H. McQuaig of Edmonton.

BOY'S TRIP WAS DARING TWO WAYS

VANCOUVER, Sept. 3.—(BUP)—Vancouver police are searching for an adventurous young man who crossed the straits of Georgia from Nanaimo to Vancouver in a 14-foot boat. A 14-year-old lad is believed to have taken two ways to make the hazardous trip. Nanaimo police said the boat was reported stolen Tuesday. Thursday afternoon, a fish-baiter explained that the youth off Point Atkinson near Vancouver and toward the city harbor.

Fishermen Puzzled As Tuna Refuse Lures

VANCOUVER, Sept. 3.—(CP)—There's a bling strike on by a few million tuna fish off British Columbia coast. But B.C. fishermen, who already have been in something over 1-250,000 pounds of the fatty offshore, hope the death of bites soon will come.

They confidently expect before the 1949 tuna season ends late this month to have exceeded last year's record catch of 2,000,000 pounds.

UNUSUAL NUMBERS

Usually large masses of tuna have been found by the 20-watt tuna fleet off the Queen Charlotte, 200 miles north, but for the last month the fish have been ignoring the trawlers' feather lures. Nets are used.

Fisheries officers say this year is the first the fish have snubbed the bait. Nor do they know the reason for the unusually large size of the tuna landed to date.

Fish average 18 to 19 pounds, compared to 13 to 15 pounds last year.

Tuna fishing, known as American fishing, is thriving in Canada. During the war federal fisheries patrol boats found schools of tuna in northern coastal waters and the fleets have grown every year since.

PRICES DOWN

Last year the fish brought \$600 to \$800 a ton, but prices dropped this year to \$400 to \$500.

The fishing fleet's toughest job is to locate the roaming and elusive tuna. They are generally found in water of 50 to 60 degrees in temperature and on the edges of the Continental Shelf—about 70 to 80 miles off shore.

The Pacific tuna, which include yellowfin, skipjack and the tender albacore variety, are much smaller than mid-ocean, catch of eastern Canada.

The season, which usually opens in mid-July, lasts only about eight weeks.

Robeson Concert To Be Protected By State Police

ALBANY, N.Y., Sept. 3.—(AP)—Governor Thomas E. Dewey today ordered "all available state police" into Peekskill tomorrow to prevent disorder at a Paul Robeson concert scheduled for tonight.

Dewey acted while sponsors of the concert mapped out action to try to keep demonstrators from entering from the scene of the performance.

A scheduled Robeson concert in Peekskill last week, hundreds of anti-Communist battalions with Communist sympathizers in a fast-moving melee. Robe on, was interrupted by friends and did not appear.

PHONE 26334

On his return from inspection of Mr. Fox, a director of the International Northern Atlantic Planning Council, will attend a convention of that body Sept. 10 in Spokane.

The council takes in British Columbia, Alberta, Yukon, Washington, Idaho and Montana.

He said there were about seven government parties active in the north at the present time. They are conducting researches at scattered points, examining outcroppings and mapping details.

To his company's present fleet of 14 aircraft, there have been added this year three Bellini Bellini Skyrover and one Dellavillain Beaver.

Housewives Rule Building of Homes

Royal Commission Hears Brief On Canada Housing

OTTAWA, Sept. 3.—(CP)—If Canada wants better-designed homes it will have to come begging at the door of the Canadian housewife.

The housewife is the boss when it comes to home design, D. B. Mansur, president of the Central Mortgage and Housing Corporation, said yesterday.

And to some extent she's influenced by the advertisements she sees in magazines, the housing expert told the Royal Commission on Arts and Science development.

"If there is room for improvement in the way people live, I believe the only way of achieving that improvement is to make the housewife want something better."

Mr. Mansur appeared before the Royal Commission along with Humphrey Carver, the corporation's research director. Mr. Carver presented the commission with a 4,000-word brief on the Canadian housing situation and its impact on Canadian cultural development.

The brief outlined a critical housing picture. It saw no reversal of a trend in which the Federal government is taking on responsibility for housing construction which normally would fall on the shoulders of the provinces under the British North America Act.

Mr. Mansur said advertising in newspapers and magazines has a strong effect on home design. Commercial concerns are playing their

part in influencing the housewife's mind. He thought that was all right, but he said he didn't agree that the government should stretch out "a heavy hand" to try and improve their influence.

The American influence is particularly strong, he said. American magazine advertising is having a strong effect on the Canadian housewife. That influence shows up more in the English-speaking than in the French-speaking areas.

As a result, the Quebec type of construction is being used less and less in other areas.

Canada's great lack at the moment, said Mr. Carver, is an adequate supply of trained community planning personnel.

McGill University is undertaking the task of training planners and other universities were initiating similar arrangements. To subsidize this training plan, the corporation had a fund of \$80,000 allocated to it by the federal government.

It had distributed about \$100,000 to Canadian universities.

herd were sold to Col. Bedson, and from here is the story gets complicated.

It seems that Col. Bedson, after several years, made a deal with Garden City's Buffalo Jones, a chap who as early as 1884 had started a buffalo ranch.

Thus, most of the remaining buffalo in Canada were sent south of the border.

Then, these Canadian buffalo changed hands again. Jones sold the herd to the Montana rancher, Pablo, and a man named C. A. Allard, who may not have been a partner of the Spaniard.

GAME BUFFALO
It is assumed, then, that these were the same buffalo which Pablo later sold to the Canadian government.

Walking Coyote, the Indian called Sam, a Pind d'Oreille tribesman, went on a buffalo hunt in Northern Montana during 1887. He took his wife with him, it seems, but acquired a second wife en route.

Well, the first wife, obviously a jealous type, took a dim view of Sam's adventures and went home to mother.

But Sam suffered a siege of remorse and dropped wife No. 2. If Sam had been one to send wires he probably would have messaged: "I love you. Coming home." Sam went home.

BRINGS ANIMALS
And he took a peace offering with him—five young buffalo which

were calculated to appease the righteous wrath of the missus. Sam's buffalo grew into a sizeable herd and eventually proved too expensive a proposition for the Indian.

So he sold them to Pablo, and these, too, were part of the herd which came to Canada in 1907.

Sam's ultimate end was a one. With the money he received for his buffalo herd he went on an extended wing-ding and was found dead one morning in a ditch.

But Sam's gift to wife No. 1 definitely played a vital role in the preservation of the buffalo.

All these men, then, will be remembered on Monday when hats will be off to the buffalo.

Today, at Elk Island Park, there are about 1,300 head. There are no

Canadian Jet Engine, Plane May Go to USAF

TORONTO, Sept. 3.—(CP)—The Globe and Mail says today a Canadian-designed jet engine and a Canadian-designed light plane may soon go into production for the United States Air Force.

A newspaper story by Aviation Editor James Horvick says the engine is the Orenda, designed by Avro Canada Ltd., and the aircraft is the Beaver—a single-engine, air-passenger utility transport built by the De Havilland Aircraft of Canada Ltd.

MUSIC TUTORS PLAN DRIVE FOR MEMBERS
Drive for new members will be made this year by Edmonton branch of Alberta Registered Music Teachers' Association.

First meeting of the year will be held in the public library Sept. 12, president Herbert G. Turner has announced. All-out drive will be made to increase membership, which now totals over 90.

Victor Berger is vice-president of the group. Edna Schultz is secretary. Edna Schultz is treasurer; executive members are Mrs. M. A. Cooper, Mrs. A. E. Wright, Eva Sallio, Millard Foster, P. Hooke and G. Tucker.

It is reported he was sent there under orders of the department of National Defence.

Progress officers of the USAF are studying the Beaver, an aircraft adaptable for operation on wheels, skis or pontoons, which could be used as an ambulance or a communications and general purpose machine, the story says.

Corrugated Concrete Pipe For Sewers and Culverts

Are now being manufactured at the new plant of Jefferies and Sons Limited, Calgary. This plant produces up to 2,100 feet per day in the sizes of 8", 10", 12", 15", 18", 21", 24" and 30" and 36" tongue and groove pipe either plain or reinforced. Fittings such as tees, bends and also produced.

OUTSTANDING FEATURES

THAT MAKE THIS PIPE EXCEL ALL OTHERS ARE:

- Corrugated for extra strength and less weight.
- Made with Kalcrete Cement to prevent alkali attack.
- Rot and Rust Resistant.
- Large production capacity.

Write, phone or wire us for specifications and price lists. Your orders will receive our careful attention. Deliveries made immediately.

We invite you to visit our plant to see the pipe being produced.

JEFFERIES and SONS Limited
CALGARY, ALBERTA

SULLEN MONARCH of Banff buffalo herd was "Sir Donald," until he lost horn in fight with younger bull. Noble specimen was one of two buffaloes presented to Dominion government by Sir Donald Smith, Lord Strathcona. "Sir Donald" was captured by John Mackay, one of few men to realize buffalo was doomed for extinction. Alberta Historical Society will honor last of noble race Monday afternoon at Elk Island Park.

King of the Prairies Will Be Honored at Elk Island

By John McLean
Bulletin Staff Reporter

The buffalo, once monarch of the Western plains, is coming into his own again. The great shaggy beast, provider of food and clothing for Indian tribes of yesterday, is to be honored Monday by the Alberta Historical Society at Elk Island Park.

Buffalo Day at Elk Island will see a plaque unveiled to the memory of the regal roamer of the range.

Speeches, music and singing will feature a full afternoon devoted to the glorification of the mighty animals which once swarmed across the west.

But it will be as much a tribute to the men who saved the buffalo from extinction as it will be to the buffalo.

Tribute will be paid those few frightened Westerners who fore-saw the day when the last buffalo would be killed "for a few dollars or a mug of cheap whiskey."

ONLY FEW LEFT
These men, then, must go down in history for the roles they played in preserving the king of the plains.

For as the 19th century drew to a close only a few buffalo roamed

Oliver, then minister of the interior, and owner of the Bulletin, to purchase for the Dominion a large herd from a United States rancher.

More than 700 head were bought from Michel Pablo, Montana rancher. It took three years to round up the herd and ship the animals to Alberta.

Some went to Elk Island, some to Watrous and some to Banff. But other names stand out in the fight to save the buffalo.

There was John McKay, walking Coyote or Samuel as he was known to his Indian brothers. Col. John Bedson of Stony Mountain, penitentiary and Buffalo Jones, a Kansas rancher.

They all played important roles. McKay, hunting near Prince Albert in 1879, captured a buffalo and gave it to his brother James (Hon. James McKay, one-time provincial secretary of Manitoba).

The following year John presented his brother with a second calf. The two mated and in a few years a small herd was the result.

Part of this herd was sold to Sir Donald Smith (Lord Strathcona) who in turn gave some to the Dominion government.

The government sent the buffalo to Banff.

The remainder of the McKay

Veterans' Small Holdings Become Big Enterprise

EDMONTON VETERANS in recent competition of small holdings development across Canada held by Department of Veterans Affairs ranked high in winning group. This is prize winning home and grounds of H. C. Keen at 12510-76 street.

RAISING STRAWBERRIES and other fruit on their small holdings last won second prize for J. F. Wallace of 12445-76 street. Besides fruit, Mr. Wallace, World War veteran, raises many different varieties of vegetables.

FIRST PRIZE for landscaping in recent DVA sponsored small holdings contest was captured by R. W. Knechtel of 6002-107 street. Judges agreed this was one of best developed properties in Pleasantview district.

COMBINATION of landscaping and gardening won second prize for H. Marshall of 10706-58 avenue. Starting it as hobby in 1946, Mr. Marshall now possesses well balanced large garden intermingled with fruit trees and berry bushes.

Boyle Street Community League Swings Into Action

POWER USE
JUMPS OVER
10 PER CENT

City power consumers used 10.3 per cent more electricity during the period Jan. 1 to Aug. 28 than in the corresponding period of 1948. Figures released today by W. I. McFarland, power plant superintendent, show lowest power sold to the city were 101,283,136 compared with 92,532,400 in the same period of 1948. This is an increase of 9,448,736 kWh.

Ostrich Proves Big Attraction

On the ostrich is expected to park in again Sunday at Edmonton's Herdman Park.

"Another crowd like last week and he'll pay for himself," says A. C. "Sandy" Patterson, park department superintendent.

Final figures on last week's ostrich competition show that Ostrich attracted the largest crowd of the season.

Mr. Patterson says he would also like to buy the ostrich and lion from Leader Shows, but accommodation is the big stickler in their case. It would take a long time for them to pay for themselves.

A. J. Ody has offered to donate his special pet, a siam cat, to the city if a suitable home and good care can be provided for it.

Park department telephones are kept jumping with people requesting that the city buy the animals—particularly the ostrich. But the decision rests with city council.

They must give their blessing before a deal can be made.

If the city does not buy the animals, local business men must sponsor several purchases in that the non will not lose out on its opportunity to get a few rare specimens. Mr. Patterson declined comment on the suggestion.

Jack A. Weber, 9043 103A avenue, has been unanimously elected president of Boyle Street Community League.

Truck Rodeo Slated Here On Sept. 10

Even if you're bowled over and miss a broken leg or two, don't think that Edmonton's vehicle drivers aren't becoming more safety conscious.

Even at the cost of personal injury your sacrifices as a pedestrian are more rewarding, when you know you're personally and painfully taken part in the great education campaign.

But no one wants that kind of educational safety campaign, least of all the Alberta Motor Transportation Association, American Trucking Association, Western Army Commission and the Edmonton and Calgary Safety Council.

That's why Safety Week will be held.

THE OCCASION will herald the first annual truck "rodeo" which will take place the same afternoon at the Edmonton airport.

If you think you're a smart driver you'd better be there at 1:30 p.m. to witness up to 200 trucks eliminated by super-smart driving.

Truckers in Lethbridge, Calgary and Edmonton have been practicing for the past three weeks.

Military drivers held their eliminations Thursday at the Namias air base. Civilian run their eliminations off Friday at Namias.

Saturday, Sept. 10, both civilian and military truck drivers will hold separate finals for the province at the Edmonton airport beginning at 1:30 p.m.

THE CONTEST is made up of 10 tests, listed by the AMTA as:

Appearance, fire-fighting, tight driving, information, equipment, defects test, and driving through the following: serpentine, offset alley, straight line, parallel parking, dock alley and descending clearance.

All proceeds will go to provide comforts for veterans in Col. Menzies hospital.

CREATED FOR CHARM AND CHILDREN

HERE'S A HOUSE that offers the luxury of sweeping contours and the utility of spacious terraces for children's play and adult recreation—all on a lot only 78 feet wide. Fieldstone walls and chimney, harmonizing with gracefully-battened plywood, give the exterior a permanent tidiness. The rear terrace, with sunken sand pit, is sheltered on three sides and has easy access to kitchen window buffer. Each large bedroom has two closets and is cross-ventilated. Four picture windows in the living room and dining ell overlook both garden and front terrace. Sketch plans are available by writing, Good Housekeeping magazine.

Loch Lomond is the largest lake in Scotland.

Big Dog Show Here September 8 and 9

Two rare dogs from California are entered in the Edmonton Kennel Club annual show to be held Sept. 8 and 9 in the Auto Exhibit building.

A Westminster, considered by dog fanciers the most intelligent breed in the world, and the haird dachshund are among the large number of entries already received from western states as far east as California, and from points as Alberta, Saskatchewan and Manitoba.

Judging will be continuous from 10 a.m. to 10 p.m. both days, with 2 Fleming of Calgary and W. Wil-

lams of Vancouver officiating. Kingsway Branch No. 375, Canadian Legion is sponsoring the show this year. Usually held in Prince of Wales Armories, it is being staged in the Auto Exhibit building of Reserve Army activities taking place in the armories.

Cash prizes total \$500, and 16 awards are also up for competition.

All proceeds will go to provide comforts for veterans in Col. Menzies hospital.

"The Thorndale"—This is an economical and sensible bungalow design. Care has been taken to assure a nice balance of room sizes with excellent wall spaces and ample closet accommodation. A feature of the front is an attractive bay and doorway flanked by fluted pilasters which are detailed in restrained modern style. The width of 26'8" makes the house suitable for a narrow lot. Stair arrangement allows two good bedrooms to be finished on the second floor. Cubic contents are 20,000 feet with allowance for a large recreation room in the basement. This is another in the popular series in practical and logical home designs prepared for readers of the Bulletin by Harold C. Beckett, MR. A.I.C., 52 Chatham St., W., Windsor, Ont.

Resolutions on Labor Relations Go To CBA

BANFF, Sept. 3.—(CP)—A series of resolutions dealing with legislation governing labor relations disputes will be placed before the Canadian Association today.

The resolutions were approved at a sectional meeting of the CBA yesterday and forwarded to the general council of the Association for action.

A resolution brought before the committee meeting by the Manitoba branch of the association, would recommend to Dominion government the withdrawal of the right to strike from employees of Dominion and Provincial governments in certain types of essential, municipally-operated and commercial services affecting basic public welfare. In place of the right to strike, the resolution would force employers as well as employees, to submit the dispute to arbitration and make the arbitration award binding upon both parties.

Delegates said that under no circumstances should employees be deprived of the right to withdraw their services without a compensatory provision of satisfactory means to securing the proper remuneration and adequate working and social conditions.

Another resolution will ask the

PENNY'S VALUE TAKES JUMP

LINCOLN, Neb., Sept. 3.—(UP)—Local coin collectors are examining their 1907 Indian head pennies with new interest.

Catalogues value the coin at from 10 cents to \$5.

But in a petty larceny case here, the penny was valued by County Attorney Frederick Wagner at \$25 and the defendant in the case was fined that sum, plus costs.

"Over The Top" With Frantz Garage Doors and Hardware

The simplest possible device for the opening and closing of garage doors operates easily and smoothly. A Frantz door eliminates cables, weights, chains or pulleys. Simple operation simply releases the latch and the automatic opener clears your opening in three seconds.

See down not necessary... your Frantz door may easily be converted into one solid overhead door. Two large coil springs, with a lifetime guarantee, supply the necessary counterbalance power.

Tito Doesn't Expect Russ To Attack

PARIS, Sept. 2.—(AP)—Tito doesn't expect a Russian attack on Yugoslavia, but he is prepared for it if it comes, says Professor Krimlyan, who is professor of the Yugoslav Marshal at his summer home last week, told a Paris press conference last night.

"He does not expect a Soviet attack, but is prepared for it if it comes," Krimlyan said when he was asked if he had any doubts in 1944 with Prime Minister Stojanovic had been arrested, the Marshal answered: "They were not."

Professor Krimlyan said Tito told him he was anxious for good economic relations with the west but not at the price of western interference in the internal affairs of his country.

Stojanovic said Tito thought that there were some elements of democracy in the Tito concept. That is not to say it is a true democracy in any concept of the idea. "At the same time Tito does not believe in the monarchist state at Belgrade apparently does."

Costly Mission
DETROIT.—(UPI)—It cost Bill Clinton \$6 to pay six cents on his income tax. He received a \$2 parking ticket while in the tax office and his lawyer charged him \$5 to pay the fine.

ROMAN POLICEMEN find Miss America of 1945, Bebe Shopp, quite good to look at as she goes sight-seeing in ancient city. This carabinieri gives the Minnesota beauty directions on fashionable Via Veneto.

RARE BLOOD NEEDED FOR LUKEMIA VICTIM

TORONTO, Sept. 2.—(UPI)—He needs another five or six quarts, the doctors said. Meanwhile, Porter is being treated with a newly-discovered and comparatively rare drug called iminosyn, but it is expected to be some time before the result of the treatment can be determined.

Doctors said Richard Porter, 21, is slowly bleeding to death in St. Michael's hospital where he was admitted 19 weeks ago suffering from leukemia. They said that although appeals have gone out almost continuously since Porter entered the hospital, only one quart of the rare, R-negative "O" type blood, believed necessary to save his life, has been donated.

Easier To Find
CHICAGO.—(UPI)—Police won't have to look in any haystack for the needles stolen from a supply firm. The needles, valued at \$100,000, were found in a small stack themselves. They totaled 123,000.

Moose Institutions Are Fine Examples

Purity, Aid and Progress is the motto of the Loyal Order of Moose.

And it is a particularly accurate description of the undertakings of the lodges and women's auxiliary chapters.

Benefits offered to lodge members are two-fold. They offer assurance of security in old age and security for the family of a member who dies suddenly.

Two institutions have been set up by the group in the United States. They are the Mooseheart, or The Child City and Moosehaven, a home for old-age Moose members. Mooseheart is located 35 miles out of Chicago and spreads over 1,200 acres of land.

It tends to the needs of orphaned children of Moose members.

EVERY CHANCE
From the time the child is six until he graduates from the city's various schools at 18 he, or she, is given every chance to develop into a normal, healthy citizen. The project is practically self-sufficient and raises its own vegetables and runs a dairy herd. Since the city's inception 3,500 boys and girls have received an education and learned a trade at the school.

For boys, there are 35 trades from which they may choose and for girls, 13.

HOUSED ON THE GROUNDS
The city is more than 200 buildings which take care of all the children's needs. Two scholarships are offered each year by the women's auxiliary to the top two students of the school. They may be used for furthering the recipient's education at any university in the United States. Another project being carried out at the child city is the erection of a "House of God".

In England, another researcher has found a much more practical aim on things has come up with what appears to be a neat trick: He claims to have discovered a process by which pigs can be grown bigger and meatier while they eat less.

GOOD RECORD
The records speak for themselves. Of the 5,000 odd graduates of the

NORMAN GLADSTONE HEYD, past supreme governor of Loyal Order of Moose, who is attending Alberta branch three-day convention in Edmonton.

On The Farm

By Pat McVein

News notes from all over: At a South Dakota agricultural experiment station, researchers proved that fat tails even with a grasshopper.

They planned 11 different varieties of wheat, and when the grain was headed out, they released grasshoppers and watched the results. The grasshoppers chose first.

Reward, Marquis and Thatcher passed over other varieties.

In England, another researcher has found a much more practical aim on things has come up with what appears to be a neat trick: He claims to have discovered a process by which pigs can be grown bigger and meatier while they eat less.

WILD DANCE
He says, by feeding baby pigs small quantities of iodized casein and a hormone substance. Ten-week-old pigs fed this way gained more weight than their litter mates fed the same ration but denied the chemicals.

Over a 20-week period, the treated pigs ate 10 per cent less than their heavier brothers and sisters. At Pennsylvania agriculture station, the healthiest tomatoes in-breeding, will have a final test on neighboring farms.

During five years of developing and testing the animals, they were marketed at 250 pounds, and now yield nearly half their carcass weight in high-priced meat: corn, ham, loin, bacon, shoulder and shoulder butt.

The average market hog produces only about 40 per cent top-pine meat cut at slaughtering.

AT FORT MCMURRAY last week, members of the Alberta legislative assembly visiting the government's oil sands plant, also saw residents of the district growing the biggest, healthiest tomatoes that ever missed being in a garden show.

Because the growing season is short, the tomatoes seldom get a chance to ripen, but gardeners pick them green, wrap them in paper and store them in cool basements where the temperature is from 32 to 55 degrees.

Ripening slowly, the tomatoes last long enough to be served Christmas day, but have to be picked over every two or three days so that ripe ones can be removed for the table.

AT LAPEERE COUNTY, a sheepman turned 14 pounds of oats into nearly two pounds of wool. He selected 25 ewes from a flock of 185, and fed them two-thirds of a pound of oats a day for five weeks before shearing.

The extra oil in the ration accounted for a one-and-two-thirds pounds increase in fleece weights at shearing time compared to the fleeces of the remainder of the flock.

At Clallam County, Wash., a turkey producer used the same principle and netted \$235 "rent" for one acre of land in 15 weeks.

He planted three acres of the land to grass, used an acre at a

EDMONTON BULLETIN, Saturday, Sept. 2, 1945

down between the farmer and his city cousin. Men of the land are already demanding a 40-hour work week.

At a result, he says, the time is coming when there will be more and more shortages of farm products unless city dwellers are willing to pay more for their food.

But how are we going to train cow to a five-day week?

The Roman alphabet originally consisted of only 20 letters.

Big Moose Meet Opens Here Today

Over 300 Delegates Attend
From All Over Dominion

Fourth annual convention of nine Alberta Lodges of the Loyal Order of Moose gets underway in the city today.

More than 300 representatives have arrived to take part in the three-day convention.

Most notable personage to attend is Norman Gladstone Heyd, of Toronto, Past Supreme Governor of the Order and chairman of Moose-bayon Governors.

Accompanying Mr. Heyd is Miss Margaret McGee, graduate grand master of the Women's auxiliary of the Order.

Mr. Heyd joined the organization in 1906 and became governor of the Toronto Lodge. At that time there were only two lodges in Canada, in Toronto and Hamilton.

Quiet and unassuming, Mr. Heyd is a lawyer in private life and holds the honor of King's Counsel.

Why did he join the lodge?

It was a fairly easy question too according to Mr. Heyd.

NO DISCRIMINATION

"It is a unique organization," he commented. "But the point that sold me is the lodge does not discriminate."

He explained that only qualification needed to join the Order must be that applicant is white and a loyal citizen of the country.

"Religion and nationality do not enter the picture at all," he said. "Neither does the matter of financial position."

In 1927-28 he was made Supreme Governor of all Moose lodges in the world, which numbers more than a million.

During this period he went to Great Britain and started the Governors' chapters, which now has a total membership of over 15,000.

After that he became a board member of the Moosehaven home in Florida and was later appointed chairman of the board.

As the interview ended Mr. Heyd sucked on his pipe and said, "Well I've devoted my entire life to the lodge and intend to keep on doing so right to the end."

HIS LORDSHIP FINDS FAMILY SEAT CAN PAY

PRESCOTT, Lancashire, England, Sept. 3.—(AP)—Lord Derby reported with pleasure today that his family seat now is a going concern.

The 31-year-old peer said he has taken in £3,500 (\$50,000) in 40,000 public admission fees to rambling Knowsley Hall this summer.

Lord Derby decided last spring that Knowsley Hall would have to pay its own way hereafter. Because of high taxes, he has been unable to keep it in good repair on his usual income.

ONE OF 200 buildings which houses vocational schools for orphans of Moose members, called "Child City." It is located 35 miles from Chicago, Ill., and spreads over 1,200 acres.

Cleric Dies

ST. JOHN'S, Nfld., Sept. 3.—(CP)—Rev. Thomas John Flynn, 67, Roman Catholic coadjutor archbishop of St. John's, died Thursday

following a lengthy illness. He was born at Glenties, Ireland.

The Turner Valley oil field, in spite of its shrinking output, continues to contribute about 10 per cent of Alberta's oil.

Canadian Poet Laureate Urged

OTTAWA, Sept. 3.—(CP)—Creation of the post of poet laureate in Canada was recommended yesterday before the Royal Commission on Arts and Sciences.

Officials of the federation of horse schools suggested that Canada follow the example of the United Kingdom, and that other great literary and artistic laureates be honored by creation of suitable or an existing monetary awards.

YOU GOTTA BE GOOD THERE

TORONTO, Sept. 3.—(CP)—Three garage workers were fined a total of \$27 or 12 days' work when found guilty of violation of the Lord's Day Act. Police said the three were painting a car at a weekend garage on Sunday, July 25. John H. Conarty, foreman, was fined \$25 or 12 days' work; Norman Neuhoff, \$10 or 5 days' work; and William Van Houten, \$2 or 1 day's work.

Old West Comes Alive on Screen

John Payne and Gail Russell
Star in 'El Paso' At Strand

Smoky guns of the wild west in 1865 come to the screen Monday when El Paso starring John Payne and Gail Russell starts at the Strand Theatre.

El Paso is a western, specially filmed in color and captures to a great degree the mood and feeling associated with the Old West.

Story concerns a cavalry officer (John Payne) who returns to El Paso to find the girl he loves and her father, a broken, besotted man.

OUT-SHOOTS KILLERS

He leaves that the town is controlled by a shady lawyer who cheats, robs and kills, using the law to put a farcical stamp of legality on everything he does. Payne soon learns to outshoot the killers and matches them eye-for-eye, tooth-for-tooth.

AUDREY MITCHELL
Returns to Edmonton.

Speech Arts Teacher Plans Kiddie Theatre

Children's Theatre for Edmonton is the aim of Audrey Mitchell, former city girl who has returned here following four years of speech arts study at the Royal Conservatory in Toronto.

FOUR RARE FISH STOLEN

SAN FRANCISCO, Sept. 3.—(AP)—Four rare fish were stolen from a tank in the Steinhart Aquarium Thursday night. They were two pairs of Pompano, valued at \$100. They were picked out of 5,000 fish on display and staff biologist Maurice Hakover said the thieves "knew just what they wanted."

Canada's Domestic Exports Decrease

OTTAWA, Sept. 3.—(CP)—Canada's domestic exports during July were \$21,300,000, four per cent lower than the \$22,600,000 worth of goods shipped in July last year; the bureau of statistics reported today.

Total exports for the first seven months of the year, however, were \$165,000,000, compared with \$161,000,000 last year. The lower figure for July resulted from substantially increased exports to foreign countries, particularly the United States.

Everyone Favors Civic Auditorium

Survey Fails To Find Any Opposition To Big Project

Strange thing about the proposed civic auditorium is that everybody seems to be in favor of it.

Yet the project proved unpopular when it came to a vote of about 20,000 burgesses for property owners or taxpayers, or whatever you want to call them in the city, only 30 percent even bothered to vote.

Since a two-thirds majority was needed, the plebiscite was defeated.

NOT A NO
The Bulletin has been asking people continually during the past few months about their opinions on the auditorium question.

It has yet to meet a "No." Everyone admits and understands that the city needs an auditorium, whether he be a musician or just the man on the street.

The big problem is to get the burgesses out to vote, so the two-thirds majority can be obtained.

Here's what has to be done now before the auditorium can get beyond the preliminary plan stage.

First, city council must pass a resolution to submit a money bill to the burgesses.

Then the burgesses will vote on the question during the November election. Property owners are the only ones who can vote on money bills.

If the burgesses vote it in—and that's a big "if"—exact location of the auditorium must be decided.

IN CIVIC CENTRE
It is generally agreed that the building should be in the civic centre area, but its exact location will depend on the multi-million dollar plan of the city.

Hotels, clubs, and other buildings in the civic centre are in the heart of the city, and it's doubtful if it will be renewed if the auditorium will be located there.

Plans must then be drafted, and council will call in all interested organizations to decide just what the auditorium will include.

Thanks to the active Citizens' Auditorium Committee, which represents thousands of Edmontonians, a lot of that has been done.

Finally, council must decide who will build the auditorium.

ARTIST'S LOT GETTING TOUGH

VENICE, Italy, Sept. 3.—(Reuters)—Venice police have put up traffic lights on the Grand Canal.

The gondoliers, already suffering the competition of motor boats, are protesting, and some of them ignore the lights.

"There I was," complained one gondolier, "just hitting the high C of an aria when a policeman shouts that the lights are against me. How can an artist work under such conditions?"

SEAT 2300
Original plans drafted by city architect Max Hearn call for an auditorium with seating capacity of 2,300 to 2,500.

More than that really isn't needed, especially when you stop to consider that Toronto's Massey Hall seats just about 2,300, and the famed Radio City Music Hall in New York seats just 6,000.

How is the auditorium going to be financed?

The city will have to sell debentures, about \$1,500,000 worth to pay for the structure.

And property owners, except for those prosperous souls who own the chunks of Edmonton, don't have to worry that taxes will leap to astronomical heights as a result of the borrowing.

Mill rate will probably be increased about two mills. As Mayor Harry Ahlby has estimated, the average resident will have to pay just \$1.52 a year extra in taxes.

THE YEAR
Remember that it isn't home like the auditorium, or social service, that are raising taxes. It's the utility extensions in this growing city of ours that are expensive.

Edmonton is a city that has to pay for a decent place for Edmonton's cultural activities.

Noted Mine Promoter Dies

HEINRICH, Ont., Sept. 3.—(CP)—J. P. Gordon, 70, prominent mine promoter and railwayman, died here Thursday.

Mr. Gordon was a graduate in civil engineering, University of Toronto, and worked with the Canadian National railways at Ottawa and Harry Shand, Ont. In 1900 he went to work on the Crow's Nest Pass, where he remained until joining the staff of the Northern Manitoba and Saskatchewan Railway.

Several years later he was appointed assistant chief engineer in the Hudson Bay Railway.

Interested in mining, he promoted the Sherrill-Cortina mines in northern Manitoba and then returned to eastern Canada to live in Montreal.

EDMONTON MILELETTIN, Saturday, Sept. 3, 1940 25

Stabbing Costs Tavern License

MONTREAL, Sept. 3.—(CP)—Stabbing of a 16-year-old boy in a Montreal tavern last Saturday night resulted in the revoking of tavern keeper Henri Legault's license.

Legault, president and general manager of the Quebec Liquor Commission announced today.

The stabbing of Robert Hebert, a 16-year-old drinking companion, touched off a wave of protests from Montreal residents, Mr. Legault said.

He said the license was revoked on charges that the tavern was serving beer to minors. Legault forfeited any knowledge of the stabbing and said no boys under 21 were allowed in his beer parlor.

DALE CARNEGIE COURSE

- Effective Speaking
 - Leadership Training
 - Human Relations
 - Basic Salesmanship
 - How to Win Friends and Influence People
 - Memory Training For Men and Women
- ### New Classes Forming for Sept. 23rd & 30th

What You Will do in the Dale Carnegie Course
You will meet twice a week for seven weeks as one of a group of adults for training by certified Dale Carnegie instructors.

- In the first session you will talk about such easy topics as your business or profession.
- As the course progresses you will be shown how to select subjects and talk with animation and enthusiasm.
- You will be given a sure-fire formula to help you plan and construct your speeches.
- You are shown how to take an active part in meetings and to become a person of more importance.
- You will be constantly drilled in the fine art of winning friends and influencing people.
- You will be taught how to apply the rules for overcoming fear and worry.
- You will be given intensive memory training—remembering names, faces and facts.

Special Classes Conducted for

- Individual Companies or Groups of Companies.
- Executives and Department Heads.
- Service Clubs—Men's and Women's Organizations.

United Nations Series Gets Best of Talent

EDMONTON, Sept. 3.—(AP)—The United Nations Series of musical performances, which began last night, is expected to attract the best talent in the world. The series, which is being presented by the United Nations Educational, Scientific and Cultural Organization, is a series of musical performances by leading artists from various countries. The first performance was by the Russian State Symphony Orchestra, conducted by Leonid Kniazkov. The series is expected to continue for several weeks.

Miss Joan Solowan, who specializes in instruction for children from age 3 to an extended trip to Chicago, U.S.A., where she is studying advanced teachers' work in tap-ballet-toe-acrobatics-Spanish and ballroom dancing. Miss Solowan will return to the city on Sept. 15th to resume classes then.

REGISTER NOW!

With Miss Solowan, assisted by Miss Mary Ann, assistant teacher at the Joan Solowan School, registration begins Sept. 1. Further and new students must register soon as classes will be full.

Record Library Is Aim of Board Here

Government Branch Seeks To Log Musical History

History of music in one record library is the hope of the Alberta Music Board.

ACTRESS, 79, TOO YOUNG

EDMONTON, Sept. 3.—(AP)—Miss Marie Ann, believed to be Edmonton's oldest actress, is 79, has trouble looking her age on the stage. Nightly she powders her face to make herself look old enough for the "senior-citizen" character she plays in "The Ship at Sea."

For an American radio team.

This will be followed by "Junction in Europe," written by Gilson Barker and directed by Corwin. It will illustrate graphically the accomplishments of the Economic Commission for Europe—one of the most important of the agencies concerned with world recovery and reconstruction.

From Toronto, the series will present a documentary written by and featuring the story of the struggle to get the nations of the world to outlaw the most vicious starvation and depletion of resources that have occurred since the end of the first world war.

REFUGEE WORK

EDMONTON, Sept. 3.—(AP)—The Alberta Music Board, which is seeking to form a library of records covering the history of music in this province, has announced that it will publish a book on the history of music in the province. The book will be published by the provincial department of education. It will contain a list of all the musical performances that have taken place in the province since 1900.

City Lands Sales Down

August sales of city-owned land slumped \$40,000 over the August, 1948, figure, but total sales so far this year still stand \$177,000 over 1948. Figures released yesterday by John Patterson, land department superintendent, show August sales of \$81,448, compared with August, 1948, sales of \$121,448. Total sales so far this year are \$778,784, against \$618,134 in the first eight months of 1948. Revenues collected by the city during August were \$13,310, an increase of \$2,433 over August, 1948, when collections were \$10,877. Best collections in the first eight months of 1948 exceeded the best of the comparable period of 1948 by \$5,382. This year they are \$103,660, against \$98,278 a year ago.

YOUNG STARS GET CHANCE

Allright section of Alberta Registered Music Teachers Association will continue to sponsor Sunday afternoon concerts by young Edmonton artists this year.

Plans for these and for other projects will be made at season's first meeting to be held in studio five, Alberta College on Tuesday evening.

The club is made up of younger music teachers.

Top Soloist Here Sept. 19

One of Canada's top singers is slated as guest artist for the first Women's Musical Club concert here Sept. 19.

He is Morley Margolis, former University of Manitoba student who was first place on the "Singing Stars of Tomorrow" radio competition.

Since his college days, he has given solo recitals over the CBC networks, has sung at the famed Berkshire Musical Festival at Tanglewood, Mass. under Sergeoussevsky of the Boston Symphony Orchestra, has appeared in New York opera productions, and generally has climbed quite a ways to the success ladder.

During this summer, he has been guest artist at the Banff Springs Hotel.

Here is the rest of the Women's Musical Club schedule for this season:

Sept. 15—Membership tea in Empire Room, Hudson's Bay Co.
Oct. 8—Pianist Monica Frade and Yenor James Lamond, in Young Artists' Series concert in Youngmen Junior Symphony, Harold Shean conducting, and Ruth Gillis, soloist, as singing artist.
Dec. 3—Children's Ballet Theatre, Siela Holoko, choreographer, and St. Cecilia Chorus, Mrs. Davies conducting, January-Betty Jean Hagen, Calgary, violinist, February—Gardeline Mason, pianist; March—Young Artists' concert and annual meeting and tea to be announced.

City Will Lose Prominent Lady

Mrs. E. M. Holtzman Leaving After Outstanding Career Here

A woman who has made Edmonton the centre of some of the best speech arts work in Canada is leaving here soon to make her home in Victoria.

Mrs. E. M. Holtzman and her husband are leaving this month for the east.

Since 1918, Mrs. Holtzman has contributed to the city's cultural life as an outstanding piano and elocution teacher.

She has seen interest in speech arts grow from almost nothing to what she calls "tremendous." It was she who brought the first elocution examiner to Edmonton from the Toronto Conservatory. This was in the middle 1930s. She felt the speech work being done here to be of an inferior type and encouraged her pupils to study better literature and good poetry rather than the type of humorous doggerel which then came from the stage.

NOT ENOUGH
"The children lapped it up," she says, adding that sometimes when they were offered lighter, more humorous work to do, they have shrugged it off, demanding pieces with "more meat."

This firm foundation which Mrs. Holtzman has built up in Edmonton has naturally given her a feeling of satisfaction. But even the fact that her pupils have often won highest marks in the Dominion in speech examinations doesn't make her feel her work is completed.

"There is wonderful interest in speech work here now and the field is wide open," she says. Though she's sorry to leave she's happy her work is in the hands of one of her outstanding pupils.

Andrew Mitchell.
Two years ago, Mrs. Holtzman was in the east for six months where she studied at the Royal Conservatory in Toronto and taught at the Hamilton Conservatory.

WINS CUP
Initiation of the high esteem in which she is held by all who know her was the special banquet held in her honor two years ago when she was presented with a silver cup which has been known as the Sybil M. Holtzman cup and has since been awarded at Edmonton Musical Festival.

The dinner was the happy thought of Mrs. Charles Grant, Mrs. Stanley Ross, Mrs. W. H. H. and Mrs. N. J. Mitchell, mothers of four of Mrs. Holtzman's promising pupils.

In answer to the prayers heaped upon her and her pupils, Mrs. Holtzman always answers, "I'm lucky to have always had such talented children in class."

Coffee Stays Hot

PRESCOTT, Alta. — (UPI) — The Chaff House, a local cafe, was always proud of the hot coffee it served. When fire swept the small cafe from cellar to ceiling, a lone cup of coffee on the charred counter was the only reminder of the establishment's thriving business.

WINNIPEG VIOLINIST HERE OCTOBER 24

Called "the world's most thrilling woman violinist," a 22-year-old former Winnipeg girl will be one of the highlights of autumn musical events in Edmonton.

Donna Grescoe will appear in concert here in the Masonic Temple on Oct. 24.

She will be sponsored by the Canadian Business and Professional Women's Club.

Ticket sales begin Sept. 12 by mail order. Address to Secretary of the CBPW Club, 501 Canadian Bank of Commerce, Edmonton.

Deportee May Stay In Canada

TORONTO, Sept. 3. — (UPI) — Leonard Hamilton, 25, who jumped from the deck of a ship at Montreal into the St. Lawrence river, to avoid deportation arrived here yesterday, hopeful that he can remain in Canada.

Recently freed by Quebec courts on \$1000 bail, to be held pending immigration department decision on his case, Hamilton is now in the care of P. J. Jackson who posted his bail.

Death is preferable to returning to Europe and the clutches of European police, he said.
